## Release Notes

**Product:** Leica BLK360

**Date:** 10<sup>th</sup> February 2026

**From:** BLK Product Management

### Leica BLK360 Imaging Laser Scanner - Firmware v3.1.0 Release

These release notes contain important information about the Leica BLK360 firmware v3.1.0. This version can be loaded on all BLK360 and BLK360 SE devices of the latest generation.

With immediate effect, the new firmware can be downloaded from:

- myWorld Customer Portal: <https://myworld-portal.leica-geosystems.com>
- Leica BLK360 Website: <https://shop.leica-geosystems.com/leica-blk/blk360/blk360-firmware>

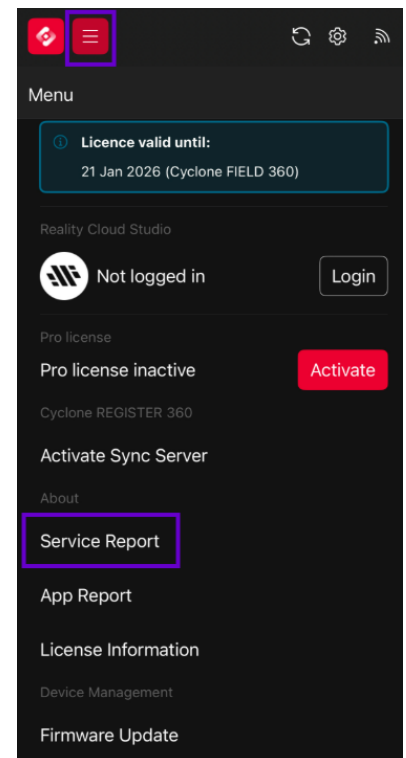

## What's new

- Service reports now capture additional scanner usage details, including the total number of scans performed over the lifetime of BLK360 and BLK360 SE units.
- Improved error handling during production to identify failures early on for BLK360 and BLK360 SE devices.
- General bug fixing and stabilization.

## Please note:

- Ensure that the device batteries are fully charged immediately upon receiving the device.
- Please remember that BLK360 Service reports can be sent to Support using the Leica Cyclone Field360 app.
- A downgrade below v3.0.0 is not supported.

It is recommended that you update your Leica BLK360 and BLK360 SE to firmware version 3.1.0 to benefit from these enhancements.

## Software compatibility

- Compatibility with mobile device apps:
  - Leica Cyclone FIELD 360 version 6.2.0 or higher is recommended.

Download iOS version here:

<https://apps.apple.com/us/app/leica-cyclone-FIELD-360/id1376463007>
