

# LEICA BLK360

NEXT GENERATION IMAGING LASER SCANNER

## RELEASE NOTES

Firmware version 1.6.1 – 12th of April 2024.

We are pleased to announce the release of version 1.6.1 for the BLK360.

This version can be loaded on all BLK360 devices of the new generation.

These release notes contain important information about the all-new Leica BLK360 firmware v1.6.1

With immediate effect, the new firmware can be downloaded from **myWorld** @ Leica Geosystems customer portal: <https://myworld.leica-geosystems.com> and the Leica BLK360 website: <https://shop.leica-geosystems.com/leica-blk/blk360>.

**This firmware is an engineering release which includes a fix for a bug that would rarely cause scans with Dense+ setting to fail with yellow LED (error state).**

It is recommended to update your Leica BLK360 to the latest firmware version (1.6.1) to benefit from this enhancement.
