How to upgrade the firmware on the RTC360 scanner
- when it has to be **right**

Leica
Geosystems

- Download the latest version of the firmware from Leica MyWorld or from www.pointclouds.eu

- Copy the unpacked firmware (*.fw) to the root of the RTC360 USB stick.

- Place the USB stick in the scanner and switch the scanner on.

- Go to 'settings' (click the three little dots in the top right corner) and scroll down until you see the 'upgrade firmware' button.

Upgrade Firmware

RTC360.fw (x.x.xxx)   ↕   Upgrade

- The firmware on the stick should be found automatically and displayed next to the 'update firmware' button.

- Make sure you have two full batteries inserted and click the 'upgrade' button.
